

## Fundraisers

People buy tickets to your event because they want to support your cause, but let's face it, we've all attended at least one too many boring fundraisers. If you want to keep your *donors coming back every year*, it's important to provide an entertaining evening. Appetizing food and drink, a lively program, and, of course, *music* to set the mood.

Nothing *breaks the ice* and creates *excitement* like **live music**.

Put people in an uplifting mood and they'll bid on more auction items or write bigger checks, and feel great about it.

You can select music in any configuration: solos, duos, trios, or my band, Joint Venture. I can provide foreground or background music. I can get them singing and dancing and *coming back for more next year*.

As an entertainer I can act as **MC** and **Auctioneer** for your big ticket items. I'm great at working the crowd, creating excitement, pumping up their generosity, and getting the bidding going higher and higher.

Please check out my extensive song list on this website, and let me customize the music for you and your guests. Make *your* fundraising party the one donors put on the calendar *every year*.
